3M

Force Protection

MISSION CRITICAL

3M is a leading resource for advanced Hearing, Respiratory and Eye Protection, Communication Headsets and other tactical safety products.

With ongoing innovation, each product is designed to perform under tough conditions. We provide comfort during extended wear and have demonstrated field-proven reliability to help ensure you complete your mission and come home to enjoy the highest quality of life possible.

YOU PROTECT US. WE PROTECT YOU.

Army, Air Force, National Guard, Navy, Marines, Coast Guard.

COMBAT SAFETY GEAR

If your job is to defend your country, 3M is committed to protecting you. When we say "You Protect Us. We Protect You," we mean it. That's why you will find 3M™ Combat Safety Gear products to be highly functional and smartly designed while helping to provide the protection you need to complete your mission. Peltor™ COMTAC™ Communication Headsets have been selected by U.S. Special Operations Command. 3M™ Combat Arms™ Earplugs are issued to deploying U.S. ground forces. Peltor™ NightHawk™ Combat Eyewear has been designed with input from returning veteran combat troops to answer the rigorous eye protection requirements of combat. We take our mission to help protect U.S. Combat Troops very seriously. You will see this commitment in our products.

COMBAT SUPPORT SAFETY GEAR

3M understands that all missions can require protective equipment, whether you are working on a maintenance team, in a logistics group or any function that supports the combat troops. We understand that safely maintaining your eyesight can be the difference in successfully building a bridge. We understand that you need your hearing in order to understand orders and carry out your mission. We understand that maintaining communications, even in often noisy environments, is critical to working as a team. 3M now offers a line of safety products designed with the Combat Support teams in mind.

- External communications and stereo “talk-thru” are independent of each other
- Ambidextrous noise-canceling boom mic (can be mounted on either left or right side by operator)
- Headband and neckband variants available
- Single and Dual COMM variants available
- Throat mic option
- Gel cushion option
- Adjustable sizing to fit different users
- ARC attachment available

Neckband version

ARC (Accessory Rail Connector) attachment,
NRR to be determined.

PELTOR™

Improved Compatibility with Helmets

The COMTAC™ ACH headset is the third generation of COMTAC Tactical Communication Headsets. Its cup profile has been improved, providing better fit and improved comfort for a variety of helmets used by military and law enforcement professionals, including the Advanced Combat Helmet (ACH). The headset features external microphones for “talk-thru” capability so today’s warfighter can maintain situational awareness while still protecting their hearing. The COMTAC ACH headset has been fielded by the U.S. SOCOM and U.S. Army PEO Soldier.

MT53H7B4610 GN	70071531373	MIL GREEN NECKBAND MODEL – NRR 25 dB CHANNELS – UHF – 462-467 MHZ

O.D. Green UHF 2-Way Radio Headset

PowerCom Plus™ headset is a hearing protection headset with a built-in GMRS/FRS two-way radio that features “talk-thru” to facilitate face-to-face communications as well as provide situational awareness. Headset features O.D. green ear cups, a noise-canceling boom microphone, 22 pre-programmed UHF frequencies, NRR of 25 dB, cup microphones for ambient situational hearing ability, ghost voice-guided menu system and 38 CTCSS analogue sub-channels.

PELTOR™

Sidewinder™ Lightweight Tactical Headset

- Bone conduction speaker in front of ear
- Minimal interference with eyewear or helmets
- Kit includes: Push-To-Talk, remote PTT and Combat Arms™ earplugs
- Allows operator the choice of wearing hearing protection (while maintaining radio communications)

Product Code	3M Stocking #	Description
88044-00000	70071557352	SIDEWINDER KIT, MBITR (AN/PRC-148) 30" STRAIGHT CABLE (WITH REMOTE FINGER PTT)
88045-00000	70071557360	SIDEWINDER KIT, PRC 153 IISR AND XTS MOTOROLA SERIES 30" CURLY CABLE (WITH REMOTE FINGER PTT)

Lightweight Bone Conduction Headset

Sidewinder™ headset features dual bone conductors for radio receive audio and a noise-canceling boom microphone for transmission. The radio audio is designed to be received through facial bones which leaves both ears free for situational and directional awareness. Users may add hearing protection and engage/disengage at will depending upon operational circumstances with nominal impact on the ability to receive and transmit radio communications.

PELTOR™

Peltor™ Basic Communication Headsets

- Standard version NRR: 25 dB
- Low profile version NRR: 17 dB
- Low profile version for fit under many combat helmets

Patented Dual-Protection Design

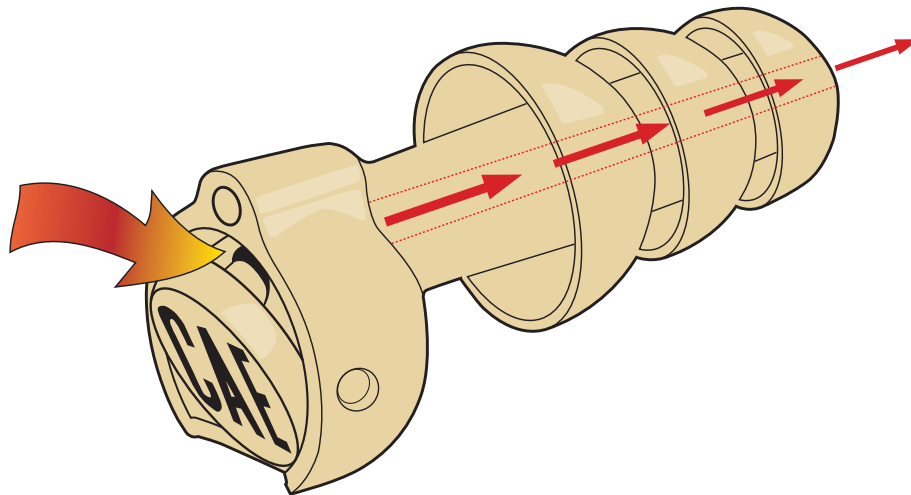

Open/Weapons Fire Mode: This earplug's patented design allows wearers to more easily hear low-level sounds critical to mission safety – conversation, footsteps, rifle bolts. When needed, the earplug's filter provides attenuation of high level noises like weapons fire and explosions.

Closed/Constant Protection Mode: For attenuation of constant noise (aircraft, armored vehicles, etc.) without hear-through.

Explanation of the Hear-Through™ Protection Utilized by the Combat Arms™ Earplugs

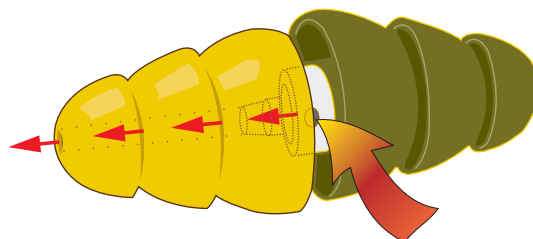

Single-Ended Version

If the rocker cover is in Open/Weapons Fire mode (illustrated below), sound travels into the earplug and down the sound channel to the special filter. The filter allows lower-level sounds to pass with limited interruption but high-level impulsive noises are restricted. The more intense the impulse, the more it is limited. When the rocker cover is in the Closed/Constant Protection mode, the earplug provides an NRR of 23 dB.

Dual-Ended Version

Sound travels into the opening at the middle of the earplug and down the sound channel in the yellow end of the earplug to the special filter. When the yellow end is inserted, the filter allows lower-level sounds to pass with limited interruption but high-level impulsive noises are restricted. The more intense the impulse, the more it is limited. When the green end is inserted, the earplug provides an NRR of 22 dB.

PELTOR™

Tactical Sport™ Hearing Protector

- Adjustable, padded stainless steel headband
- Audio input for connection to external components such as communication radios and cell phones
- Recessed microphone and contoured cup
- Amplifies ambient sound
- NRR 20 dB

Product Code	3M Stocking #	Description
MT16H210F-SV	70071558608	TACTICAL SPORT ELECTRONIC AMBIENT LISTENING HEADSET, FOLDING HEADBAND

Active Hearing Protector

The smooth adjustment of the Tactical Sport™ level-dependent function gives the user pleasant sound reproduction. The audio circuit eliminates abrupt sound cut-off while protecting hearing by attenuating loud impulse noises. Tactical Sport headset also amplifies the ambient sound up to a certain level to help the user to hear low-level sounds.

* Not compatible with ballistic helmets.

PELTOR™

Soundtrap™ Headset

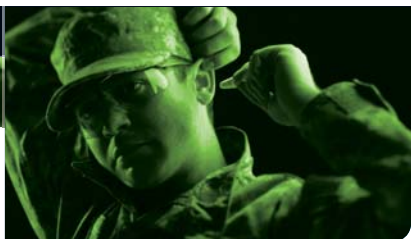

- Stereo microphones provide enhanced sound detection
- Independent volume controls on each cup
- Provides amplification of low-level sounds
- Folding design for easy storage (headband version)
- Recommended for training purposes
- NRR 21 dB (headband version)

Product Code	3M Stocking #	Description
MT15H67FB	70071524147	TACTICAL TAC-6 SOUNDTRAP SLIM LINE ELECTRONIC HEADSET, OD GREEN, AUDIO INPUT JACK, NRR 21 dB
MT15H67BB	70071557733	TACTICAL TAC-6 SOUNDTRAP SLIM LINE ELECTRONIC HEADSET, NECKBAND, OD GREEN, AUDIO INPUT JACK, NRR 17 dB

Compact Headset

This electronic earmuff attenuates high-level noise (headband version only). The Soundtrap™ headset effectively amplifies weak sounds and easily folds into a small package (headband version), properly sized for storage in a pocket or bag during transportation.

PELTOR™

PTL™ Hearing Protector

- Listen and communicate at the touch of a button
- Surround sound listening with level-dependent attenuation
- 15 dB of amplification in one cup
- Automatic shut-off (30 seconds) or when button is pressed again
- Bright yellow version available
- NRR 26 dB

Product Code	3M Stocking #	Description
MT155H530A-49A	XH001668033	TACTICAL PTL ELECTRONIC HEADSET, TACTICAL MONO CUP ONLY, HEADBAND
MT155H530A-49A GB	XH001652557	BRIGHT YELLOW TACTICAL PTL ELECTRONIC HEADSET, TACTICAL MONO CUP ONLY, HEADBAND

Push to Listen

When operators lift their earmuffs, they lose hearing protection. Now 3M puts hearing protection at their fingertips. Just push the button on the Peltor™ PTL™ earmuff for speech and sounds “outside” the earmuff cup to be heard “inside” clearly and safely. After 30 seconds, the earmuff automatically returns to its full protection level with an NRR of 26 dB.

Skull Screws™ Earplugs

- Features a screw grip and twist-to-insert design for easy fitting
- Comfortable design
- No roll-down design allows for better hygiene
- Corded earplugs so user can conveniently wear around neck
- NRR 30 dB

NSN #: 6515-01-576-8796

Product Code	3M Stocking #	NSN #	Description
370-1017	70071530318	6515-01-576-8796	E-A-R SKULL SCREWS - YELLOW/CORDED

Get Protection Into Their Heads with Twist-to-Insert Design

Unique corded earplug features our trademarked color yellow, soft (polyurethane) foam and screw grip with twist-to-insert design for training, firing ranges, flight lines and other non-combat operations. No roll-down for easy fitting - ready to wear right out of the package, helping to eliminate dirt transfer from hands to earplugs.

30 Caliber™ Earplugs

- Bullet shape appeals to snipers and mechanics alike
- Soft foam earplugs comfortable for extended wear
- Unique "ammo" protective packaging
- NRR 30 dB

Product Code	3M Stocking #	Description
97085-00000	70071531043	30 CALIBER EARPLUGS - RETAIL PACK

Shaped for Performance

30 Caliber™ earplugs are packaged to resemble ammunition in a small, easy-to-store container that helps protect the earplugs from dirt, debris and moisture.

E-A-R™ Classic™ Earplugs

- The original foam earplug
- Resistant to sweat and moisture
- Reduced earcanal pressure
- Available corded or uncorded

Proven Performance

In the industry for over 30 years, the Classic™ earplug was the first to be made of slow-recovery foam.

PELTOR™

Artillery Earmuff

- When used with earplugs, provides compliance with dual hearing protection requirements posted in weapon systems manuals
- Stand-alone protection of NRR 19 dB (low-profile neckband version) and NRR 27 dB (headband version) when worn without earplugs
- Approximately 5 dB additional protection when worn with earplugs
- Available in headband and neckband versions

Headband Version

Neckband Version

Product Code	3M Stocking #	Description
88076-00000	70071543485	PELTOR ARTILLERY EARMUFF, NECKBAND VERSION (H64 GN) - NRR 19 dB
88077-00000	70071557469	PELTOR ARTILLERY EARMUFF, HEADBAND VERSION (H7A GN) - NRR 27 dB

Dual Protection for High-Impulse Noise

Specially created with input from the U.S. Army to meet warfighters' grueling conditions, the low-profile design of the Artillery Earmuff is compatible with most current military helmets, including ACH. Ideal for artillery units and missile teams requiring dual protection under Kevlar helmets. When used with earplugs, allows for a 20-fold increase in the number of rounds safely fired.

Combat Eyewear

Patrol™ Series Tactical Eyewear

- Available in four styles
- Lightweight, durable tactical black frames
- Soft, adjustable nose pads and soft temple tips
- Wrap-around style provides side protection

Respiratory Protection

3M™ Tight Fitting PAPR Systems for CBRN Applications

- Approved to NIOSH CBRN Tight Fitting PAPR Standards - can be used for escape above Immediately Dangerous to Life or Health (IDLH) when oxygen concentrations are at least 19.5%
- Canister RBE-40 meets NIOSH CBRN “Cap 1” requirements for chemical test agents and provides not less than high efficiency particulate filtration (99.97%)
- Bright red training cartridges allow for easy, ongoing and affordable training*
- Duffle bag RBE-DFL provides protection during storage and transit
- Continuously filtered airflow for greater user comfort
- Choice of batteries: select a Lithium non-rechargeable battery with up to 12 hours of use** or a rechargeable NiMH battery with up to 8 hours of use with 90% recharge in 2 hours**
- Canister and battery must be covered for showering
- Breathing tube and facepiece can be submerged for cleaning
- PAPR battery and motor/blower cannot be submerged
- Facepieces designed for CBRN negative pressure applications when used with 3M Canister FR-15-CBRN

FR-7800B

FR-M40B

The Smart Choice for First Responders, Law Enforcement and Security Personnel

The National Institute for Occupational Safety and Health (NIOSH) approved 3M™ Breathe Easy™ RBE Tight Fitting Powered Air Purifying Respirator (PAPR) Systems for Chemical, Biological, Radiological and Nuclear (CBRN) applications. Four PAPR Assemblies combined with your choice of two comfortable and effective tight fitting facepieces, as well as other product offerings, make these systems the smart choice for first responders, law enforcement and security personnel.

* Training cartridges are not NIOSH-approved for respiratory protection.

** Battery duration will vary depending on the age of cells, temperature and filter loading.

3M™ Breathe Easy™ (RBE) Powered Air Purifying Respirator (PAPR) System for First Responders

- Approved to NIOSH CBRN Loose-Fitting PAPR Standard
- 3M™ Cartridge RBE-57 meets NIOSH CBRN “Cap 1” requirements against test agents and particulates; provides not less than high efficiency particulate filtration (99.97%)
- Lightweight, one size butyl rubber hood provides a wide field of vision, no fit test requirements and ability to use with most eye glasses and limited facial hair
- Continuously filtered airflow for maximum comfort
- Choice of batteries: select a Lithium non-rechargeable battery with up to 12 hours of use* or a rechargeable NiMH battery with up to 8 hours of use with 90% recharge in 2 hours*
- 3M duffel bag stores the system in one place and allows for quick access in an emergency

RBE-NM10

The Smart Choice for First Responders, First Receiver and Public Health Professionals

These National Institute for Occupational Safety and Health (NIOSH) approved powered air purifying respirator systems help provide protection against Chemical, Biological, Radiological and Nuclear (CBRN) particulates, gases and vapors. Uniquely designed for first responders, first receiver and public health professionals.

* Battery duration will vary depending on the age of cells, temperature and filter loading.

3M™ N95 Respirators

- Lightweight and comfortable
- Adjustable noseclips
- Variety of strap types
- Soft inner materials
- Compatible with most eye and hearing protection

Reliable Respiratory Protection

As a leading manufacturer of respiratory protection products, 3M developed the first filtering facepiece respirator to receive NIOSH approval in 1972. We have created numerous patented technologies that have been incorporated throughout our products. Today, our extensive family of respirators offers a full range of comfort, convenience and value. They are all NIOSH 42 CFR 84 approved.

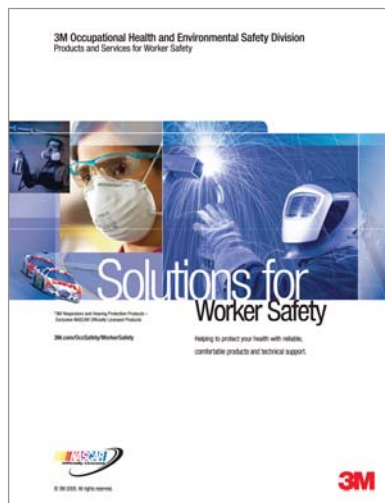

3M™ Half and Full Facepiece Respirators

- Available in small, medium and large sizes
- Drop-down capabilities for half-face models
- Compatible with 3M's line of cartridges and filters

Protection for Emergency Situations

3M respirators offer comfort, convenience, flexibility and effectiveness...just what you'd expect from an industry leader. Our facepieces with choice of filters help provide wearers the protection needed for many different missions and emergency situations.

Please contact an authorized 3M distributor for more information about respiratory protection.

Ultrathon™ Insect Repellent

- Up to 12 hours of protection against mosquitoes (lotion)
- Splash & sweat resistant for consistent protection during outdoor activities
- Repels: mosquitoes that may carry West Nile virus, ticks that may carry Lyme disease, biting flies, chiggers, gnats and fleas

Time Release Technology

Ultrathon™ Insect Repellent lotion was initially developed by 3M for the US Military to fight off the mosquitoes troops encounter and was tested in the harshest environments in the world - the Central American jungles. Time Release Technology gives the user a balanced mix between concentration of DEET and long lasting protection. Our unique technology provides longer lasting protection with less DEET.

! WARNING!

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the USER Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. **Misuse may result in sickness or death.** For proper use, see packaging instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

! WARNING!

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury.** For proper use, see supervisor, User Instructions, or call 3M in U.S.A. at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing ear plugs. Failure to do so may result in hearing loss or injury.

*Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided.

! WARNING!

These eye and face protection products help provide limited eye and face protection. **Misuse or failure to follow warnings and instructions may result in serious potential injury, including blindness or death.** For proper use, selection, and applications against flying particles, optical radiation and / or splash see supervisor, read User Instructions and warnings on the package or call 3M OH&ESD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.
